Fast service for Certificates

We know that you can't start a new job until you provide the customer with a certificate of insurance. Most requests for certificates are prepared by us while you are on the phone enabling you to immediately start the job or more importantly, **get paid.**

Many insurance companies are now offering Workers Compensation insurance policies on a "pay as you go" premium basis. Instead of paying a premium based on your payroll estimate you can make a small deposit and then pay premium based on your monthly payroll. No more large end of the year audits.
